HERALD'S CARNIVAL TRAIN.

In order that the immense throngs of people who will visit Ogden during carnival week, may obtain the largest, brightest and best newspaper published in the Rocky mountain region, and gain some idea of Salt Lake city by the superiority of her foremost journal—THE HERALD takes pleasure in announcing that it has concluded arrangements with the Rio Grande Western railroad by which a SPECIAL HERALD TRAIN will leave Salt Lake for Ogden daily during carnival week. This train will bear a circulator and a corps of bright news boys, who will distribute THE HERALD FREE OF CHARGE to the people of Ogden and carnival guests. It will leave the Rio Grande depot at 4:30 each morning, and arrive in Ogden at 5:30, ahead of any other paper—making the quickest run ever recorded in the history of western railroading. A special corps of writers from THE HERALD staff will be detailed to report the carnival in conjunction with the Ogden department of this paper. THE HERALD has the assurance of Mr. Bennett, of the Rio Grande Western, that the special train it has contracted for will be unequalled and unapproached in equipment and general elegance by the rolling stock of any other road in the west, comprising as it will, the new and magnificent broad gauge coaches just constructed for the new line. Should any passengers desire to avail themselves of THE HERALD Train to attend the carnival, their tickets will be honored same as on regular trains. THE HERALD CARNIVAL TRAIN will return to Salt Lake each evening at midnight, allowing all who desire, an opportunity to attend the ball and evening festivities in Ogden. On the night of July 3, to accommodate the many visitors from Ogden who will desire to come to Salt Lake for the great celebration of the Fourth, the CARNIVAL TRAIN will be doubled, and if necessary made into two sections.

REMEMBER, THERE WILL BE NO CHARGE FOR THE HERALD IN OG-DEN DURING CARNIVAL WEEK.

TO ADVERTISERS.

ALMOST A SKUNK.

The Salt Lakers Down the Cheyenne Club

BY A SCORE OF ELEVEN TO TWO.

The Visitors Play Good Ball, but Can't Cope With Barker's Delivery and Our Own Fielding.

If Manager Little's head was level last evening, he fired a dispatch something like the following over the wires to Denver:

We play the Salt Lakers on the 26th of July next. Build up your weak places, if you have any.

It stands to reason that if Cheyenne laid Denver out to the tune of 8 to 4—as we are assured they did two weeks ago at Cheyenne—the Denverites would be as pie to the voracious and indomitable Salt Lakers, and Manager Little's expectation of a big money game on the Fourth, induced by the hope of a close game, would "gang aft agone."

The Cheyennes are a very respectable team; light, athletic, good throwers; uniform of a blue and red vivid as to pain the eye; with a general ball capacity in every direction except standing up before Tony Barker's electric battery.

The Salt Lakers put up the strongest all-around team that has played on the diamond for 10, these many days.

The day was perfect; the crowd im-mense, and nothing at all was lacking to make a notable game. Nothing but a little more strength on the part of the visitors.

It should be said for them that they rode all night and were worn out; also that they are accustomed to playing on a soft di-amond, and the way the ball bounced on the hard earth was very disconcerting to them.

They confidently state they will play a better ball to-day, and our opinion is that they will.

THE GAME.

The Salt Lakers went out first, and the Cheyennes sent their first man up to face Tony Barker. He died in short order and so did his two confederates.

The Salt Lakers came in and shook with a gentle tremor as Platts stood up before the completion of affairs. Griffith, Lloyd and Lucas paralyzed the visitors by each getting in a two bagger. Two runs re-sulted and the cowboys looked a little anxious.

In their second the Cheyennes did nothing. Barker's terrific delivery seemed to magnetize them and they went out with the number 0 unchanged.

In the Salt Lakers third they piled up two more to their credit. The Cheyennes third was a repetition of the old story.

In the fourth, each side accomplished nothing and the score remained 4 to 0.

The Salt Lake fifth witnessed their score climb up to 5, mainly by good batting and base running. The Cheyennes worked hard in their fifth, but were powerless be-fore Barker's electric battery.

At the end of the sixth the score stood 11 to 0; the Cheyennes went down before Barker like wheat before the scythe, whereupon the Salt Lakers, Griffiths and Golding pounded the ball, the back-stop making two wretched errors, the pitcher making a big wild throw, and first base a wild throw, lifted the Salt Lakers score 6 runs and made the melancholy result 11 to 0.

The Cheyennes went all to pieces in this inning, and were as demoralized as ever. Provo, Payson or Nephi was at the bat in the recent celebrated series of games.

The Cheyennes played their seventh al-most mechanically. It was the apathy of despair, and despair never yet accomplished anything in a baseball game. Result, 0.

The Salt Lakers seventh was a whitewash. Things looked a little more auspicious in the Cheyennes eighth. The first man to come out on the mound was Griffith, second, the next got first on a scratch, pushing the other to third. The next batter died at first, but sent the man on third, and the long spell was broken, amid the yells of the crowd, who cheered as heartily as if they had all been residents of Cheyenne. Another came in on a long hit and the disgrace of a complete skunk was averted.

The Cheyennes' last was a repetition of the first: they hit the ball in good shape, but the fielding was fatal to their increasing score.

The Cheyennes went off with the idea that the umpire was against them, but there was nothing in it. They simply played in hard luck.

The Denver club which the Cheyennes played Sunday last was not the Denver club which comes here, that was the Saunders' team; the team that comes here will be the Higgins. The Cheyennes have played the former 4 to 4; the latter 8 to 3, in the Cheyennes favor. But they say Denver will play good ball here, because our diamond is hard like their own, while in Cheyenne they were at a disadvantage owing to the soft field.

FOURTH OF JULY CLOSING.

Afflicted Lark Warning, Don't Get Left—No More New Cases Taken After the Fourth of July.

Dr. Hand, the great medical electrician of Salt Lake City, has now under contract treatment in Ogden, a hundred and twenty-eight chronically afflicted persons, and at the rate new cases are coming in daily the doctor will have four hundred before the coming Fourth of July, and as there is a limit to most everything, so there is to the practice of medicine. Dr. Hand would be pleased to be able to serve you all, but with his present quarters, facilities, etc., the doctor finds himself unable to serve but a limited number more, especially where it will be necessary to treat the patient with electricity. Therefore the doctor, after the 4th of July next, Dr. Hand will not receive any more patients under treatment wherein it will be necessary to administer electricity, unless he should be able to secure more room or more spacious quarters, thereby enabling him to employ medical assistance; but will continue to receive patients such as he will be able to cure with medical or surgical treatment in this territory. Just think of one physician having 400 patients, in less than three months, and at the same time treating over two-hundred of them once each week with electricity. This is the territory, a great worker. Dr. Hand will give three months free service to any afflicted man, woman or child who will find one patient out of the 328 that he has cured. All those who think they need electricity in the treatment of their case should make application at once to Dr. Hand, the only graduate in the therapeutic use of medical electricity in Utah. Rheumatism, paralysis, especially, should rally at once to Dr. Hand, for it is an impossibility for you to be cured with any other remedy outside of electricity. Electric treatment is a new basis. Don't you believe any physician that will have the cheek to tell you that he can cure rheumatism or paralysis with any other remedy than electricity? Dr. Hand, the great medical electrician, has cured a very special case, who has proven himself to be a fraud and is only after the alms of the day and not your health. Beware of all such, they are quacks. Beware also of the false prophets of the day who tell you that they can cure you by the simple laying on of hands. They will lay their hands first upon your pocket book and then upon your head. They can do you no more good. Shut all such false saviors, for they are as vipers in the grass, sure to bite you if you go near them. Go to Dr. Hand, the great medical electrician, and let him cure you.
